The Team

We've brought together three complementary groups that excel in their field: an astute developer, brilliant architects and a respected construction specialist. Together they make a fantastic team, each building on one another's strengths.

UNISPOT

Unisport is a cutting-edge property development company, leading the market as a trusted brand through our extensive expertise in project, site, and people management. Specialising in high-density properties, Unisport is uniquely skilled at finding the ideal balance between genuine quality and a fair price; Through this distinctive approach they have empowered thousands of first home buyers, investors, and downsizers to enjoy a beautiful, functional property for less.

OZAC Architects is an NZ-based international partnership bespoke architectural practice who specialises in delivering urban and architecture design solutions to enhance the lives of those who use them. They work at a range of scales and operate within all sectors all over the world including high-end residential, medium-high density residential, mixed-use complex, headquarter office, cultural, vacation village, etc. With their professional expertise, they have proven experience in designing and delivering outcomes that are feasible, innovative, sustainable and fully realize the potential of the site from both architectural and commercial perspectives.

RECO Construction specializes in creating medium to high-density residential and light commercial developments in NZ. The scale of RECO projects varies from 30 units to 150 units, and over 300 units go under construction each year. With close knit support from architects, engineers, and developers, RECO works successfully under D&B (Design and Build) model, ensuring the best end to end project governance and client experience. RECO's mission is to deliver market leading quality, on time and cost-effective construction projects for the clients.

Maven was founded by a group of industry leaders in land development, surveying and civil engineering. They have worked on some of New Zealand's largest and most complex residential, commercial and public sector projects. Maven has the people to lead, the knowledge to innovate and the focus to achieve a best possible outcome.

SPACE
STRUCTURAL ENGINEERING & DESIGN

SPACE focuses on mid-large sized residential and commercial projects. They provide high quality and cost-effective structural engineering solutions at design stage and prompt variation solution during construction. SPACE is also the corporate member of Fire Protection Association (FPA). And it provides fire design solutions for low-mid sized residential projects.

Urban & Environmental

Barker & Associates (B&A) is a specialist planning consultancy founded in 1997. Today B&A has a team of more than 45 planning and urban design staff operating out of Auckland, Kerikeri, Whangarei, Hamilton, Napier, Wellington, Queenstown, Wanaka and Christchurch offices. They service clients nationwide and undertake projects of all sizes.

ENGEO is an employee-owned, award-winning firm of geotechnical and civil engineers, geologists, hydrologists, environmental scientists, and construction quality assurance field representatives. We have offices in Wellington, Christchurch, Auckland, Tauranga, Queenstown and throughout California and recently opened in Australia. With the combined forces of more than 350 employees across New Zealand, Australia and the United States, ENGEO has completed all types and sizes of projects in multiple market sectors. Since 1971, the firm has built a reputation for finding solutions instead of problems, embracing project challenges as opportunities to serve and innovate.
